"Don't Envy Beauty — Use Pompeian"

"How well you look tonight!" Such compliments are the daily joy of the woman who applies her cream, powder and rouge correctly. Here is the Pompeian way to instant beauty:

First, a touch of fragrant Pompeian DAY Cream (vanishing). It softens the skin and holds the powder. Work the cream well into the skin so the powder adheres evenly.

Then apply Pompeian BEAUTY Powder. It makes the skin beautifully fair and adds the charm of delicate fragrance.

Now a touch of Pompeian BLOOM for youthful color. Do you know that a bit of color in the cheeks makes the eyes sparkle with a new beauty?

Lastly, dust over again with the powder, in order to subdue the Bloom. Presto! The face is beautified and youthified in an instant!

These preparations may be used separately or together (as above) as the complete "Pompeian Beauty Toilette." Pompeian DAY Cream (vanishing) softens the skin. Pompeian BEAUTY Powder, a powder that stays on—flesh, white, rachel (formerly called brunette). Pompeian BLOOM, a rouge that won't crumble—light, dark, medium. At all druggists, 60c each. Guaranteed by the makers of Pompeian MASSAGE Cream (60c), Pompeian NIGHT Cream (50c), and Pompeian FRAGRANCE (30c) a talcum with an exquisite new odor.

Clear Away The Summer's Tan

Don't wait for it to "wear" off. You can easily make your skin fair and smooth in a short time.

Begin today to make your skin more beautiful by this easy formula:

A little Creme Elcaya* rubbed gently into the skin; then if you need color, a little Elcaya Rouge spread carefully over the cheeks before the Cream is quite dry; and after that, the film of face powder over all.

Right off you'll like the feeling of it—and the looks. And with regular use you will see a refining and refreshing of your complexion that you wouldn't have believed possible.

Creme Elcaya is the original non-greasy disappearing Toilet cream. It was introduced first in New York in 1900. Today its purity and superiority are acknowledged throughout the world.

Your dealer has ELCAYA and has sold it for years.

BERT-- LYTELL --PAYS-- "The Price of Redemption"

Dering, the outcast, (Bert Lytell) is unaware that he is saving his own son from being crushed by the maddened elephant.

Dering is tracked to his hut in India by his former wife's husband.

Dering foils the plot of the Rajah to murder all the whites by blowing up the floor beneath them.

The Rajah sends for Dering in hope of using him as a tool of revenge.

The "Price of Redemption" is heavy, but the reward is worth its weight in gold.

Dering's wife believes he has murdered his father and renounces him. He becomes an outcast.

Dering goes as a pariah into the palace of the Rajah, where he is to redeem himself, see his enemy die at the hands of the Rajah and regain his wife and child.

DARE DEVIL STUNTS

If Art Acord gets a cramp in either arm or the seated person gets a foot free, Art is going away from here with celerity and dispatch and will be absent for sometime.

Charles Hutchinson, the Pathe thrill purveyor, is merely in a hurry to catch a train. There is a fast freight pulling out and he has a date in the caboose.

"Bill" Duncan who repairs breaks in air waves for the Vitagraph wireless outfit, keeps in practice by ambling from one roof to another on telegraph or telephone wires, at the same time keeping track of current events.

"Bill" Duncan became tired of riding around on the wings of the windmill and jumped off. There's a life net waiting to receive him.

"Can you rope an auto," the director asked Will Rogers. Will hedged. But he practiced roping goats. Then he said, "bring on the flivver." The flivver was roped.

What Jean Valjean did in fiction, Charles Hutchinson does in reality. He climbs a bare wall.

Eddie Polo, the Universal acrobat, snapped at the moment he is making a dangerous leap. Fortunately he made a good connection.

"Bill" Duncan doesn't mind a burning bridge when he's foiling the villain.

A DAY WITH PEARL WHITE and her PLAYMATES

She's adept
at raking up
a vegetarian
dinner.

Pearl is cheerful,
even in the
berrying
ground of her
Bayside, Long
Island farm.

Mowing the lawn is all play and no work
for everybody, including old Ben and
Pearl's riding habit of checked worsted.

She grows
her own duck-
lings, not to
eat, just to
feed.

One of the reasons why the Fox film star
is a sure fire drawing card in Bayside
moving picture theatres. Ice cream cones
make friendship stick and Pearl's supply
is seemingly inexhaustible.

While not of a reaching
disposition she always
tries for the high ones.

When she wants
chowder she puts on hip
boots and digs the silent, suc-
culent bivalve yclept the clam,
out of his lair.

FALL FASHION FANTASIES

Mary Miles Minter, when she is on parade outside of "location" wears this raspberry velvet gown, trimmed with Chinchilla, with hat to match. The stole is of Chinchilla.

Dorothy Cummings in an advanced French street model of brown charmeuse. A yellow-red flower at the waist line, and a hat of the same shade complete the costume.

Dorothy Cummings has just bought this Chinchilla coat, especially designed to be worn as a wrap over an evening gown.

Sport coat of tan boxed velour cloth with brown velour tam worn by Constance Binney.

The Priscilla Dean Tam has a rakish and debonnaire look. It's the kind that would have made Miles Standish propose to Priscilla without delegating the job.

This Veil adds vivacity, if any were needed, to the smiling June Caprice. It is of Van Raalte net.

Being fond of kittens, Mary Miles Minter chose this costume of black kitten's-ear satin, trimmed with black fur. The bodice is lavender and brocade.

Geraldine Farrar brought this with her from Paris a few weeks ago. It is a creation of rose colored silk net over rose colored satin. The net is heavily embroidered with coral-colored beads. A wee train of net falls as a separate drape from the back waist line. Geraldine is also wearing her famous rope of pearls.

Just to be sure of having enough furs for the winter, Dorothy Cummings has added this white ermine coat, trimmed with sable, to her wardrobe.

The New Way to Use Face Powder.

NOW you can use a compact face powder that cannot break or spill. This new kind of compact was invented by the specialist who perfected the famous La-may Face Powder. The package contains enough La-may Powder compressed to last you for generous use for about two months. The compact cake of powder is covered with porous cloth. The powder is held under the cloth. It cannot spill. You wipe your puff on the cloth and this sifts the powder through just as you need it. There are two qualities of packages. Both are very flat. One box with compact and puff for fifty cents. The other is a Silverene Vanity Box with hinged cover and two-inch mirror, containing compact and flat lamb's wool puff for only one dollar and fifty cents. This better box is the same quality that sells in jewelry stores for about three dollars. This box looks like sterling silver but will not tarnish. When this La-may Compact Box is empty, you refill it by getting the fifty cent La-may Compact Box from your dealer. The compact and puff from fifty cent box will fit the La-may Silverene Vanity Box. Ask your dealer to show you this wonderful new idea.

La-may Silverene Vanity Boxes make excellent inexpensive Christmas presents. La-may Face Powder is also sold in the loose form in two sizes, thirty-five and sixty cents. La-may Face Powder is guaranteed absolutely pure. Because it is pure and because it stays on so well it is now used by over a million American women. Make This Test

See how teeth glisten then

This ten-day test costs nothing. To millions it has brought a new era in teeth cleaning. This is to urge that you try this method. Then let your own teeth show you what it means to you and yours.

To fight the film

The object is to fight the film which causes most tooth troubles. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The old methods of brushing do not end it. So, despite all care, tooth troubles have been constantly increasing.

It is the film-coat that discolors, not the teeth. And nearly all teeth brushed in old ways are coated more or less.

Film is the basis of tartar. It holds food substance which fer-

ments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. And that disease has become alarming in extent.

A daily combatant

Dental science has now found ways to daily combat this film. For five years the methods have been carefully watched and proved. Now leading dentists everywhere advise them.

These methods are embodied in a dentifrice called Pepsodent. Millions now know it and employ it. Wherever you look the results are seen in glistening teeth today.

Acts in five ways

One ingredient in Pepsodent is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the films. One of them keeps teeth so highly polished that film cannot easily adhere.

With every application, Pepsodent

combats the teeth's great enemies in new and efficient ways. To millions it is bringing cleaner, safer, whiter teeth.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how the teeth whiten as the film-coats disappear.

This test will be a revelation. Make it now. Cut out the coupon so you won't forget.
